

Because the  
world is beautiful.

Centor Integrated Doors

centor®

# Introducing Centor Integrated Doors

Create inside-outside living without the compromises with the world's first Integrated Doors.

Enjoy uninterrupted views to outside with doors, screens, shades and hardware integrated into one beautifully designed system. Screens and shades control insects, sunlight and privacy and retract completely into the doorframe when not in use, allowing control of living environments all day, all year round.

reddot design award  
winner 2015

1

## Door types

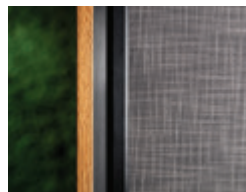

Choose an option to suit your lifestyle. Select from Folding, Double-swing or Single Integrated Doors.

2

## Screens and shades

Insect screens are available in two mesh types. Shades come in light-filtering or blackout fabric in a range of patterns and colors.

3

## Finishes

Integrated Doors are available with solid wood on the inside and durable aluminum outside.
